ERPLAX
END-TO-END ERP, LIMITLESS

TRADING & DISTRIBUTION ERP

Follow every order from purchase to delivery.

Track stock, customer invoices and collections in one place.

THE DISTRIBUTION WORKFLOW

Purchase ▸ **Receive stock** ▸ **Sell** ▸ **Dispatch** ▸ **Collect**

Key highlights

Purchasing

Raise purchase requests and orders. Match incoming goods with receipt records and vendor bills.

Warehouse stock

Locate stock by warehouse and rack. Trace batches, serial numbers and transfers between locations.

Sales & pricing

Apply customer-specific prices to quotations. Follow sales orders through invoicing, payments and credit notes.

Dispatch & returns

Assign delivery jobs to riders, follow job events and record delivery receipts and returns.

Collections & accounts

Track cash collected on delivery, rider payouts and customer payments. Review vouchers and ledger entries.

CRM & field visits

Keep lead follow-ups, customer contacts and visit logs together so the sales team can pick up the next action.

What your team can check

- ✓ Where a batch is stored
- ✓ Which deliveries are pending
- ✓ What each rider collected
